

# Create a walk - Handy hints

walking  
maps

## 1 Create route

Map your route more easily by using Snap to Road.

Use Satellite view to map the route if it's off road.

Use Summary to give brief walk overview; Description for greater detail.

## 2 Add Points of Interest

Click on the walk route to add a Point of Interest. Click 'Next Step' after you have finished adding all Points of Interest.

Upload photos with your points of interest to show the best of your walk.

Photos greater than 2MB need to be resized before they can be uploaded.

# Create a walk – Handy hints

## 3 Add details

Once you click Finish, you're ready to publish your walk.

Don't forget to show off your walking map by sharing it on Facebook, Twitter and email.

## Your Account

If you would like to publish your walk at a later stage, click Finish, and return to Your Account.

You can return to edit your walk at any time.
